PROJECT PARTNERS (if applicable—architect, consultant etc.)

Name of the Efficiency Vermont Energy Consultant for your project:

PROJECT DESCRIPTION (attach additional sheets as needed)

Efficiency Vermont has your project HERC on file and will use it to judge your entry. Please attach a 1-2 page write up to provide additional information above and beyond technical specifications.

1. What major energy efficiency challenges did you encounter during this project? How did you solve them?
2. What non-energy benefits make this project unique (e.g. innovative/adaptable design, location benefits, material choices, comfort features)?
3. What feedback have you received from the homeowner/customer?
4. What was the project construction cost?
-Include: materials, labor, finishes, appliances
-Exclude: land, foundation, other site work, renewable energy systems, any incentives

2 PHOTOGRAPHY & PUBLICITY RELEASE

I grant permission for this information to be featured in Efficiency Vermont publications, website and promotions:

- You may publicize my name and/or business name.
- You may publicize project details, including energy efficiency actions, estimated financial savings and costs, financial incentives and energy savings.
- You may publicize my photo and/or a photo of my home or business.
