Vermont

Partnering to save energy and build business.

Efficiency Vermont's Efficiency Excellence Network (EEN) is designed to help contractors build their business by providing customers with the highest level of professional energy efficiency services in Vermont. The EEN facilitates qualified leads, offers technical trainings and provides marketing and promotional support and a business listing on EfficiencyVermont.com.

EEN members serve in a variety of trades including:

- Cold Climate Heat Pump Trade Group
- Heating, Ventilating & Air Conditioning (HVAC) Trade Group
(including: Oilheat technicians, Propane technicians, Advanced wood heating contractors & Heat pump water heater installers)
- Electrical/Lighting Trade Group
- Refrigeration Trade Group
- Residential Architects
- Home Performance with ENERGY STAR (HPwES) Trade Group
- New Construction (Residential) Trade Group
- Lighting Design Group

We hold our contractors to a high standard. Requirements include:

- Possession of relevant and required state licenses
- General liability insurance
- Attend Efficiency Vermont trainings
- Compliance with certain geographic guidelines
- Completion of at least one Efficiency Vermont project per year
- Earn 5 professional credits per year
