Energy-smart buildings

are more cost-efficient, more comfortable, and more durable—providing a better return on investment.

“Working with Efficiency Vermont, we’ve received feedback and guidance every step of the way. Their support allows us to make high-quality buildings that everyone can be proud of.”

Bob Duncan
Duncan Wisniewski Architects

The Efficiency Vermont Approach:

- **Set energy goals** - Meet early in the design process to build in high performance, from the ground up
- **Energy consultation** - Optimize design and technology choices for energy efficiency
- **Financial incentives** - Scaled to your level of involvement and achievement
- **Certification** - Achieving High Performance or Net Zero certification includes official recognition of key project team members, and the option for Efficiency Vermont-led publicity

Choose a performance level that works for you:

Basic Performance

5-10%*
energy savings

Minimum Assistance
Above-Code Equipment

Equipment Approach

Yankee Farm Credit

Efficiency Vermont provided financial support for efficient equipment, enabling above-code energy performance.

High Performance

10-20%*
energy savings

Moderate Assistance
Above-Code Performance

Whole Building Approach

Norwich University

Supporting a comprehensive approach to energy efficiency, Efficiency Vermont helped this customer attain a high performance goal.

Net Zero

30-45%*
energy savings

Extensive Assistance
Best Building Performance

Whole Building Approach

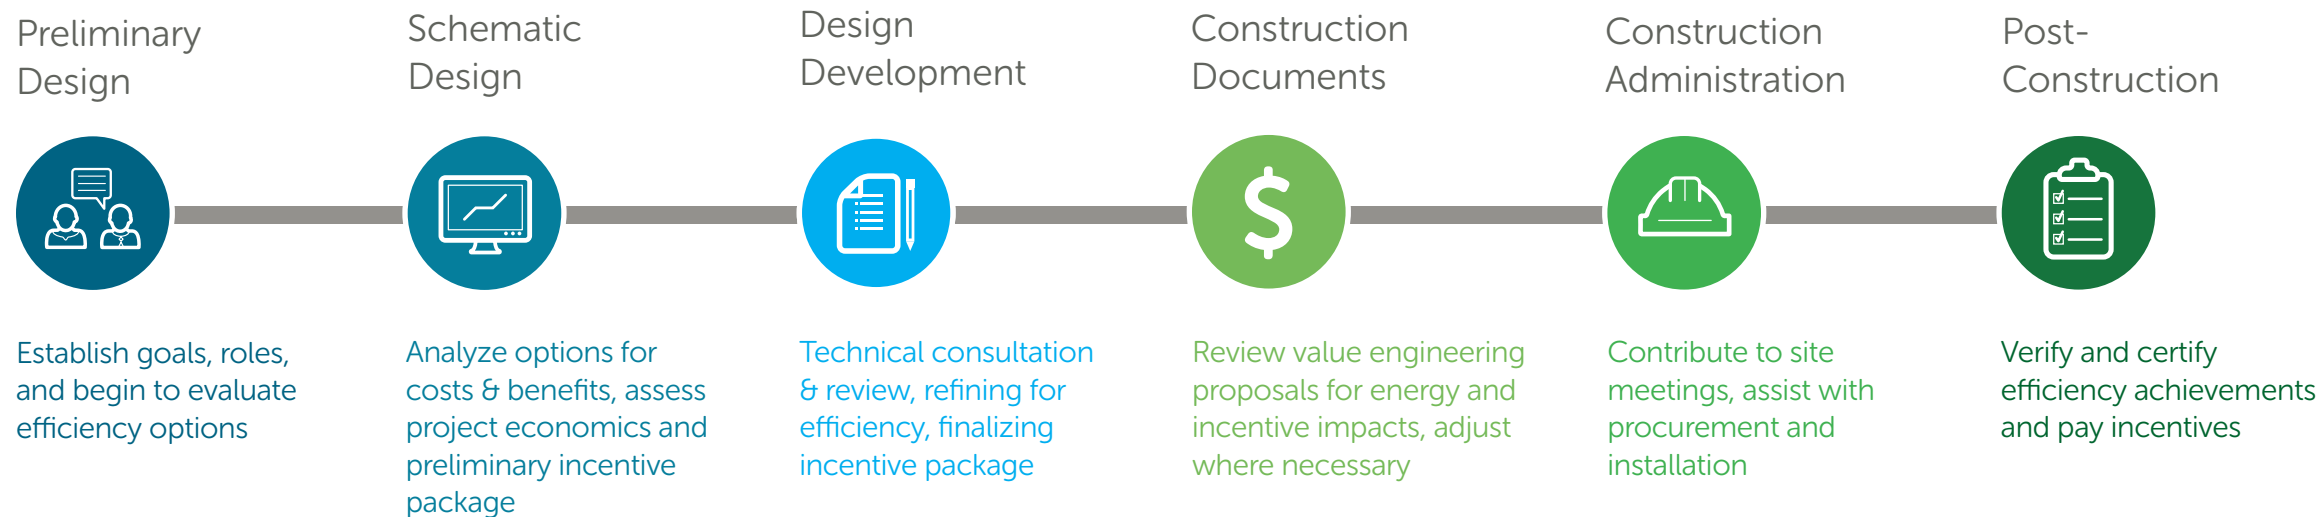

Northfield Savings Bank

Efficiency Vermont worked closely with the project team to set a path to achieve their net zero goal.
