

# Take Action to Save Energy

Ways to save at home

Efficiency  
Vermont

## 5 tips on how to start:

### 1 Pick the better bulb.

Get the brightness, color, and quality you demand—ENERGY STAR LEDs last up to 15 times longer than incandescent light bulbs. Plus, they are more efficient, generate less heat, and provide the same amount of light.

Not all LEDs are created equally, **so make sure you look for the ENERGY STAR logo to find a quality bulb that won't quit.**

### 3 Seal it.

Sometimes, sealing a home's air leaks and improving insulation are all you need to make your house more efficient and comfortable. Stop drafts by sealing gaps and cracks with caulking, weather-strip windows and doors, and fill any large gaps in basement crawl spaces, dryer vents, windows, and foundations.

**Find out more at [www.encyvermont.com/DIY](http://www.encyvermont.com/DIY)** or work with an Efficiency Excellence Network (EEN) contractor to get up to \$2,000 back.

### 5 In the cooler temperatures, turn down the thermostat

You can save 2%-3% on energy costs for every degree you lower the heat when you leave for the day and just before going to bed. Or, use a smart thermostat that learns a household's patterns.

### 2 Turn it off. ALL the way off.

The easiest thing you can do to save money and energy is to turn electronics off when you're not using them. That means powering them down completely to avoid "phantom electricity loads," or investing in an advanced power strip with technology to cut the power to devices that aren't in use. **Visit [www.encyvermont.com/APS](http://www.encyvermont.com/APS)** to learn more.

### 4 Upgrade to more efficient appliances and electronics.

When an appliance is at the end of its well-worn life (like a 15-year-old refrigerator), it's time to trade it in for a more energy- and cost-efficient model. We can help you there, too.

## When in doubt, give us a call!

Our energy experts are ready to help you diagnose your problem, discuss available discounts and rebates, or walk you through financing options.

Give us a call today at **888-921-5990**  
or visit **[www.encyvermont.com](http://www.encyvermont.com)**

**ENERGY STAR®**

Look for the ENERGY STAR label  
for quality and performance.

# Rebates for Your Home

Get help paying for products and improvements

These offers are available as of October 1, 2018 and are subject to change.  
Visit [www.encyvermont.com/rebates](http://www.encyvermont.com/rebates) for the most up-to-date information.

## Lighting

Discounts on select ENERGY STAR LEDs at participating retailers

## Appliances *Rebates on select ENERGY STAR models*

Clothes Dryer: \$50-\$400

Clothes Washer: \$40-\$75

Dehumidifier: \$25-\$40

Refrigerators: \$40-\$75

Swimming Pool Pumps: \$600

## Heating, Cooling, and Water Heating

Central Wood Pellet Furnaces & Boilers: \$6,000 rebate

Heat Pump Heating & Cooling Systems: \$300-\$400 discounts at participating distributors

High-Performance Circulator Pumps: \$15-\$50 discounts at participating distributors

Smart Thermostats: \$100 rebate for select ENERGY STAR models

Water Heaters: \$300-\$500 for select heat pump water heaters

## Air Sealing and Insulation

DIY: up to \$100 back for completing eligible projects

Working with an EEN contractor: up to \$2,000 back for eligible improvements, plus technical support

Income assistance: help is available for eligible Vermonters

## New Homes

Free technical assistance and incentives of up to \$3,000 when building a new energy-efficient home

## Need help paying for improvements?

Low-interest, flexible financing is available to help you pay for energy-saving improvements. Call us to learn about your options.

Efficiency Vermont **SMART CHOICE**

When you see products that feature the Smart Choice label, you can be confident they are the most energy efficient products on the market, and tested for the highest standards of quality and performance.

## Ready to get started?
